

## OFF THE SHELF

When it comes to property, online research is crucial for any property purchaser, but so is targeted reading. *Smart Property Investment* has handpicked some top titles to support you

### The Great Australian Dream: A guide to buying your first home

As property prices continued to rise, owning the great Australian dream seemed to be getting further and further away for many first time buyers.

Until now.

The 'go to' guide for any investor or home buyer considering stepping foot onto the property ladder, *The Great Australian Dream* arms readers with the weapons they need when taking on the property market.

With over 30 years of experience in banking and financial services, author Peter Boehm has an extensive understanding of the home buying process and trials and tribulations that face today's first home buyers.

From choosing the right loan to bidding at auction, all these challenges and a whole lot more are covered in this informative and practical resource.
